SUMIT KUMAR

BCA Final-Year Student | Java Backend Developer | Aspiring Software Developer

Lucknow, India | 7905446647 | kumar741875@gmail.com |

PROFESSIONAL SUMMARY

Passionate BCA final-year student at Integral University with a strong interest in Java backend development and software engineering. Skilled in Java, Spring Boot, MySQL, REST APIs, and web technologies, with hands-on experience building practical full-stack projects. Strong foundation in OOP, DBMS, DSA, and software development practices. Seeking a Software Developer / Backend Developer internship or entry-level role.

TECHNICAL SKILLS

Languages: Java, Python, JavaScript, SQL, HTML5, CSS3

Database: MySQL, RDBMS

Core CS: OOP, DBMS, DSA, Operating Systems, Computer Networks

Backend & Frameworks: Spring Boot, RESTful APIs, Node.js (Basics)

Tools: Git, GitHub, Postman, VS Code, IntelliJ IDEA, Docker (Basics)

PROJECTS

Student Management System | **Java, Spring Boot, MySQL, REST API, HTML/CSS/JS**

- Developed a full-stack application for student records, course enrollment, and attendance management.
- Implemented CRUD-based REST APIs using Spring Boot with MySQL database integration.
- Added search, filtering, and responsive student-management interfaces.

AI Customer Support Chatbot | **Java, Spring Boot, REST API, JavaScript, MySQL**

- Built a customer support chatbot for handling FAQs and user queries.
- Developed REST endpoints for message processing, FAQ matching, and query logging.
- Added conversation history and admin FAQ management features.

Personal Expense Tracker | **Java, Spring Boot, MySQL, JavaScript, HTML/CSS3**

- Created a web application for tracking income, expenses, categories, and budgets.
- Implemented backend services for monthly totals, expense analysis, and net balance calculations.
- Added dynamic filtering by month and category with dashboard summaries.

EDUCATION

Bachelor of Computer Applications (BCA) - Integral University, Lucknow

2024 - 2027 | Relevant Coursework: Java Programming, DBMS, Data Structures, Web Development, Software Engineering

Higher Secondary Education (12th) - Science (Biology)

2024 | Focus: Biology, Physics, Chemistry

ACTIVITIES & LEARNING

- Hands-on development of practical Java and Spring Boot applications.
- Regular coding practice in Java, arrays, strings, recursion, and data structures.
- Using Git/GitHub, IntelliJ IDEA, and Postman for development and API testing.
- Exploring Docker, REST API development, and modern backend technologies.
